

***HOW
TO INSTALL
EXTENSION?***

Step-1

Download the .zip folder of the desired chrome extension from our website.

01

 **URL SHORTENER**

This is an amazing tool presented by The DevXplore which helps you shorten your extensive URL's in just one click. URL shorteners help solve the problem of making links more manageable to share. There are several reasons to use URL shortening. Some URLs can be hundreds of characters long and contain complex character patterns. Therefore, URL shortening becomes indispensable in such situations.

DOWNLOAD

Step-2

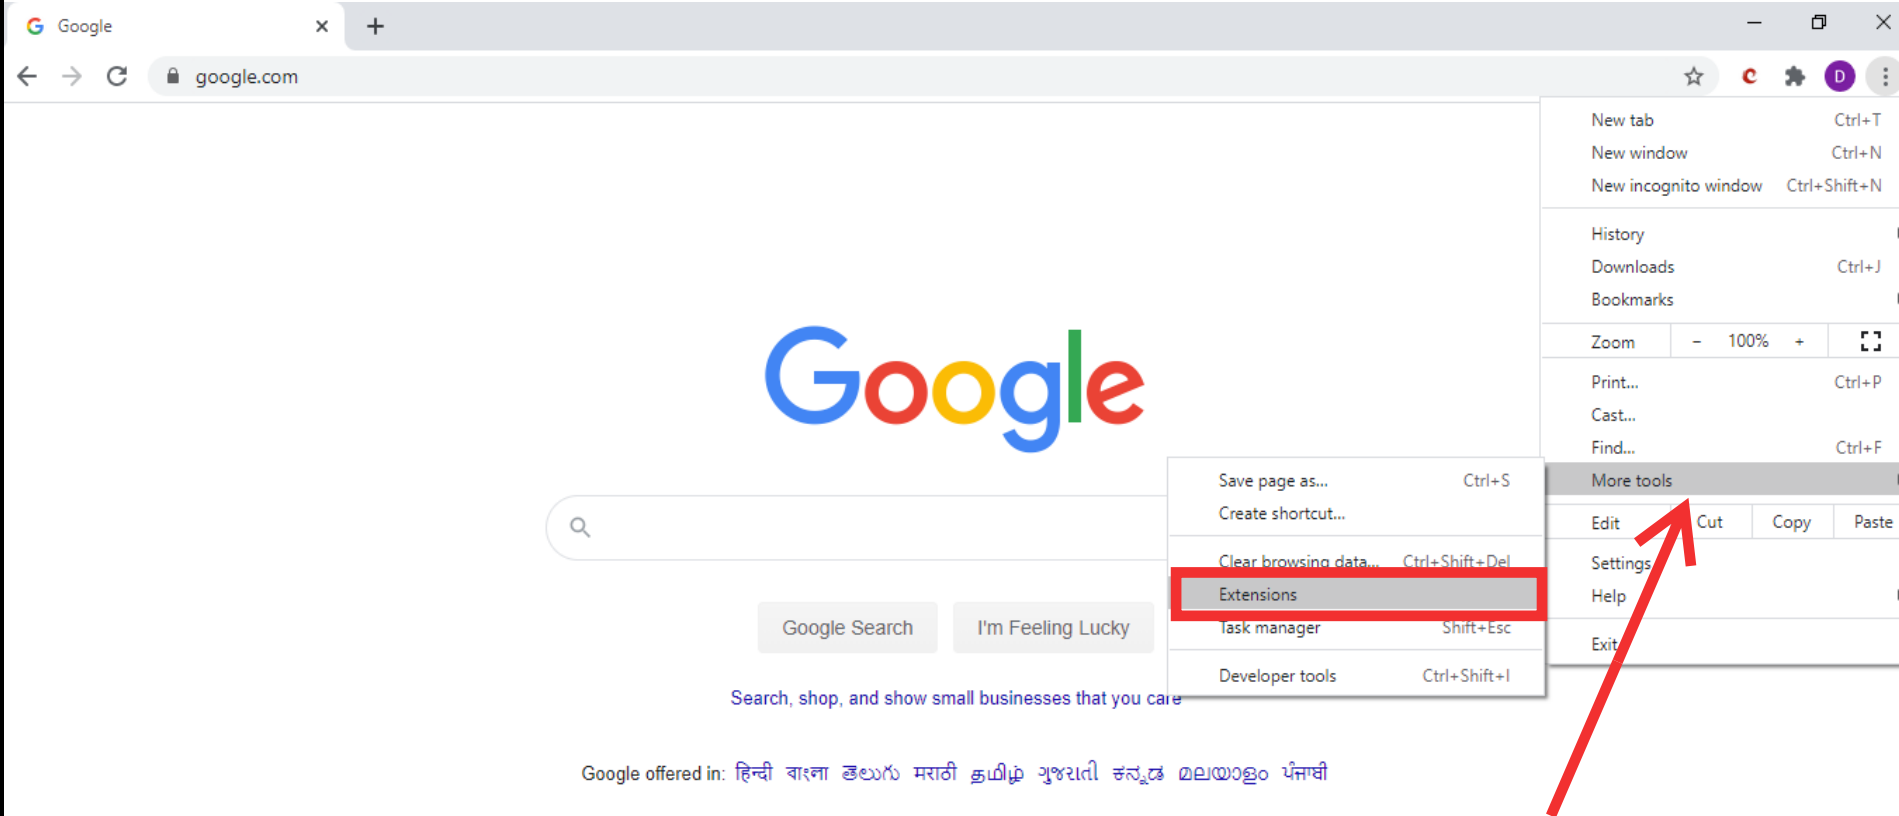

Once you have downloaded the zip file of the chrome extension, extract the files as shown in the below picture.

This will create the folder of the chrome extension in your device.

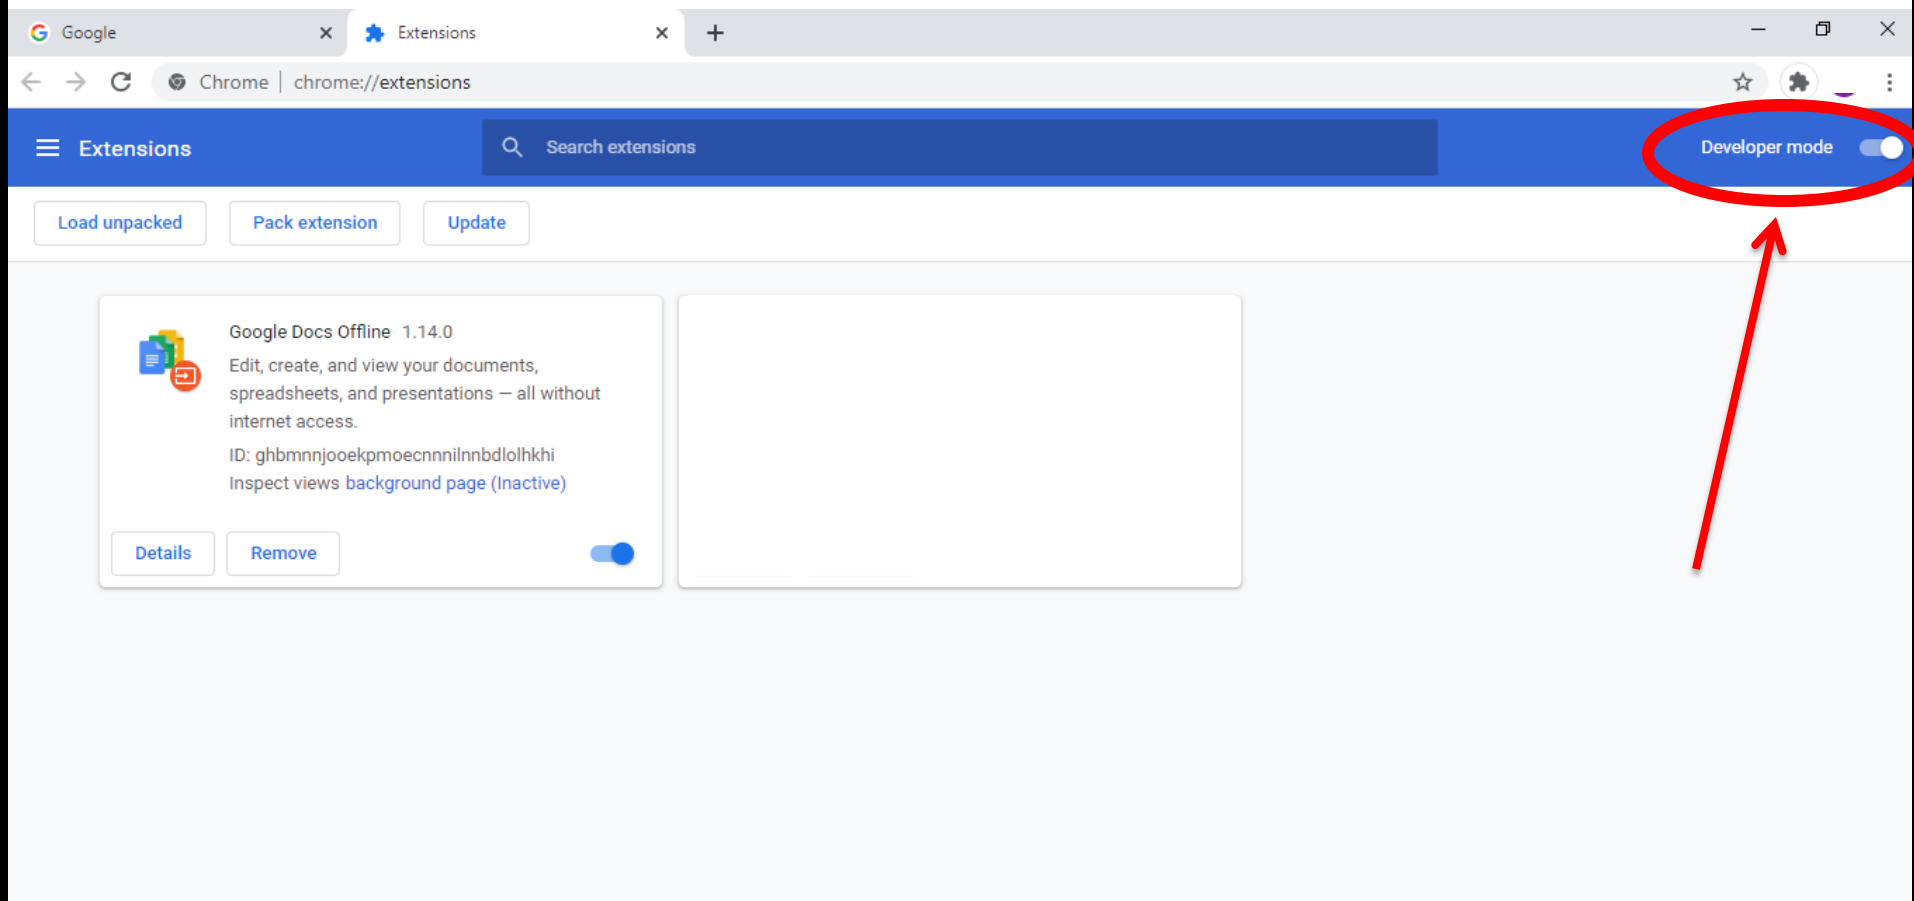

Step-3

After extracting the files, open Google Chrome and open the extensions menu.

Step-3

Switch on the Developer's Mode.

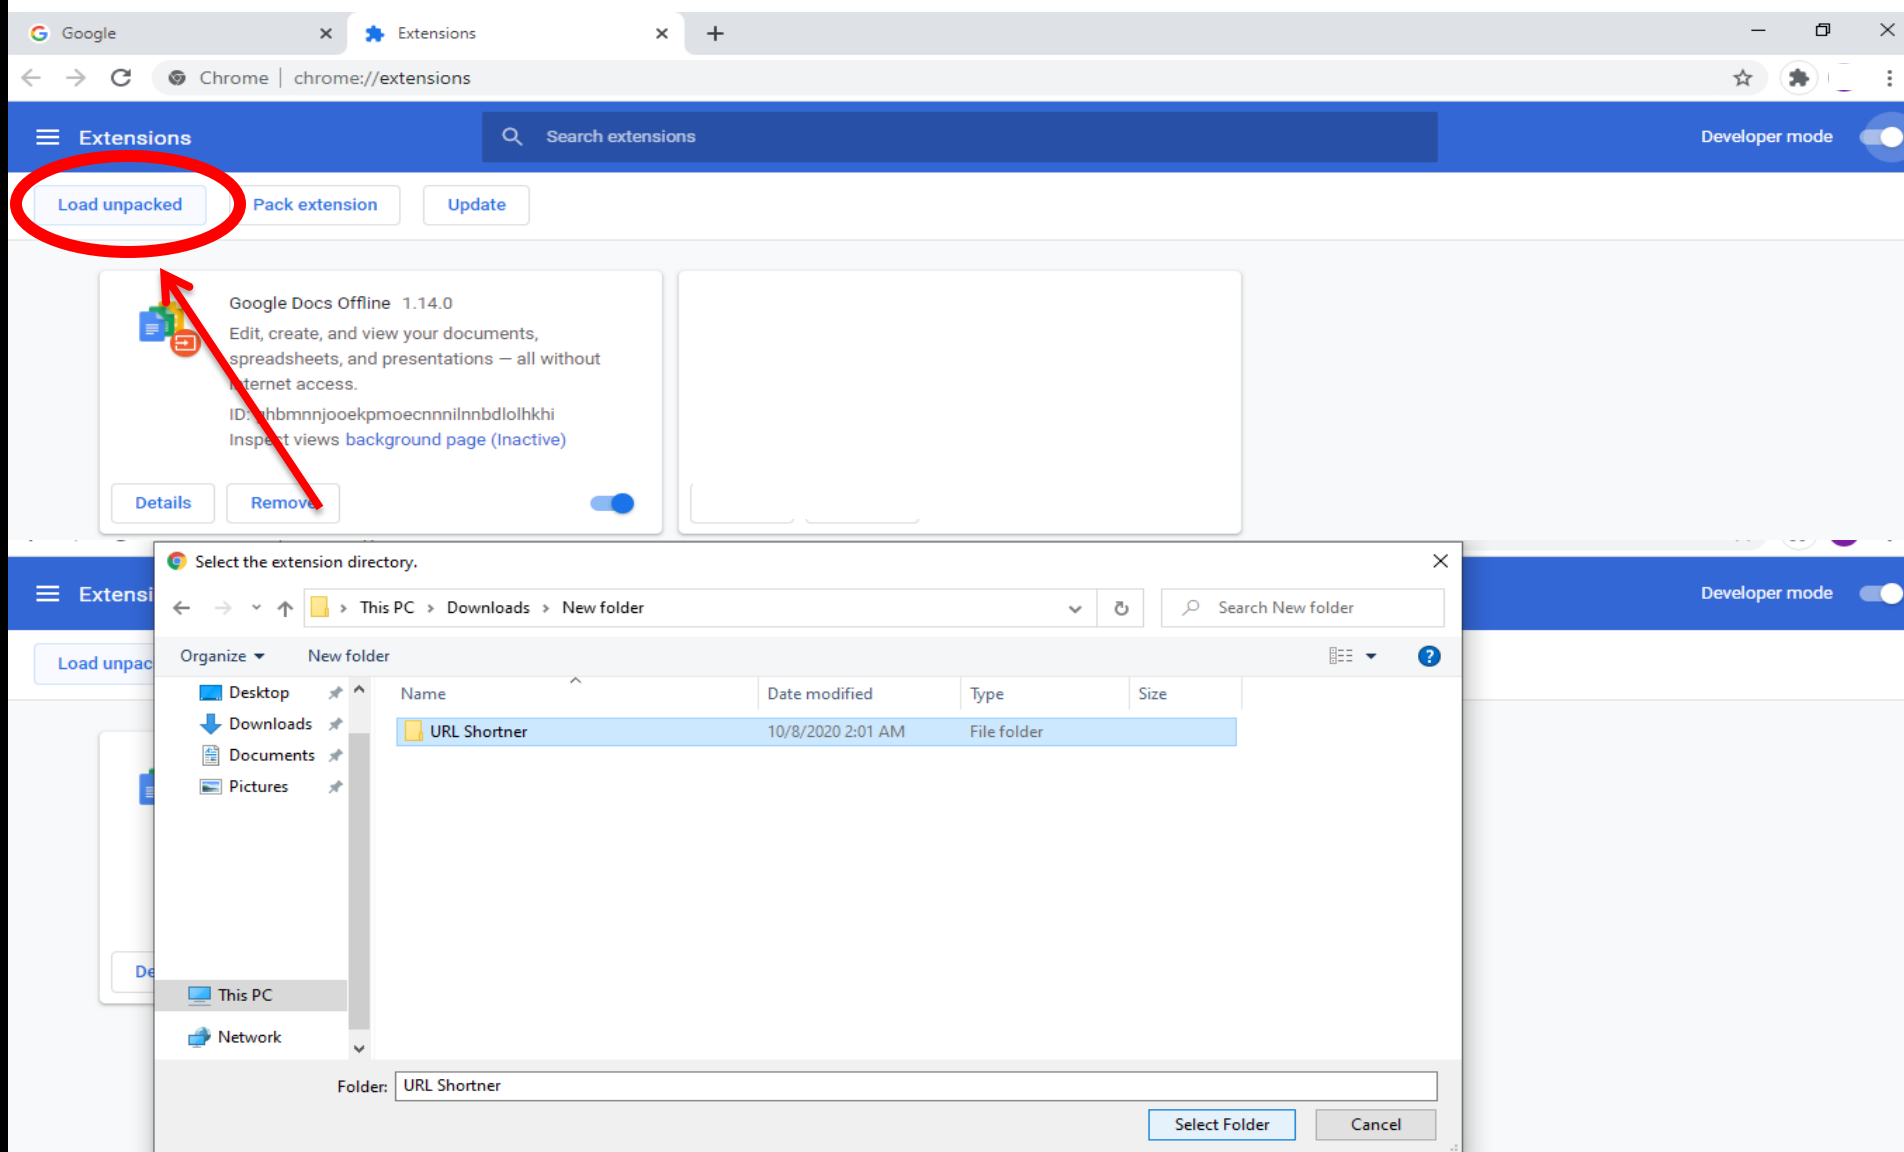

The screenshot shows the Chrome browser's 'chrome://extensions' page. The browser's address bar displays 'chrome://extensions'. The page header includes a search bar and a 'Developer mode' toggle switch, which is circled in red. A red arrow points to the toggle switch. Below the header, there are three buttons: 'Load unpacked', 'Pack extension', and 'Update'. The main content area displays the 'Google Docs Offline' extension, version 1.14.0, with a description, ID, and a toggle switch that is currently turned on.

Google Docs Offline 1.14.0
Edit, create, and view your documents, spreadsheets, and presentations — all without internet access.

Step-4

Click on the “Load Unpacked” option and select the folder of the extension.

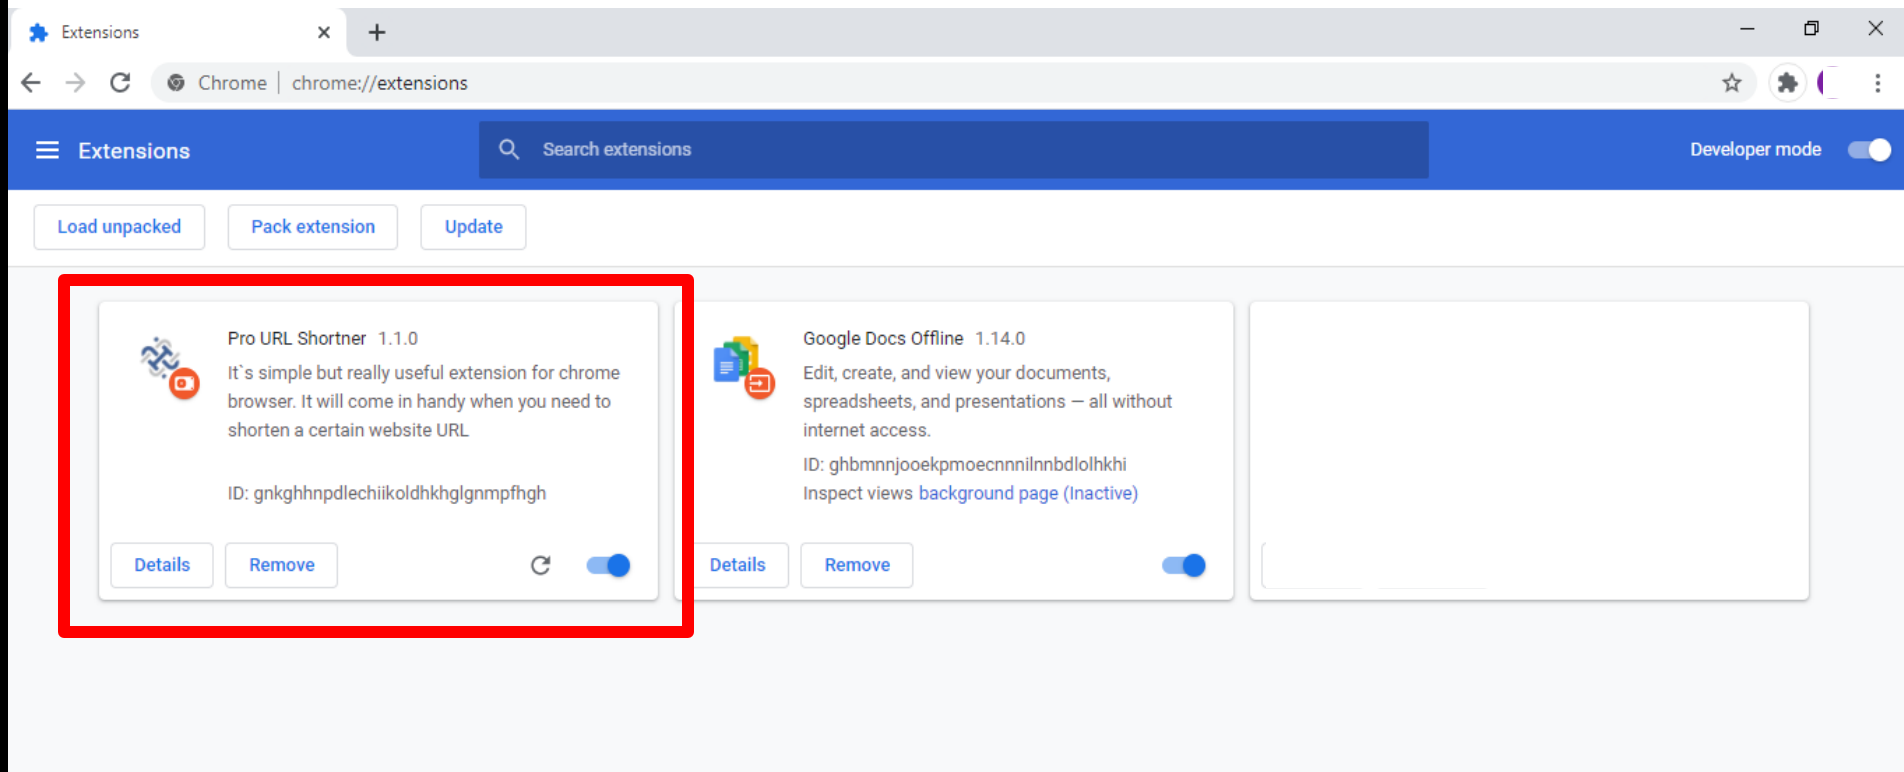

The screenshot shows the Chrome browser's Extensions page. The "Load unpacked" button is circled in red. A red arrow points from this button to the "URL Shortner" folder in the file explorer window. The file explorer window is titled "Select the extension directory." and shows the path "This PC > Downloads > New folder". The file explorer displays a table of files and folders:

Name	Date modified	Type	Size
URL Shortner	10/8/2020 2:01 AM	File folder	

The "Folder:" field at the bottom of the file explorer is set to "URL Shortner".

Step-5

Once you select the folder of the extension, it is added to Google Chrome.

A screenshot of the Google Chrome 'Extensions' page. The browser's address bar shows 'chrome://extensions'. The page has a blue header with 'Extensions' on the left, a search bar in the center, and 'Developer mode' on the right. Below the header are three buttons: 'Load unpacked', 'Pack extension', and 'Update'. The main content area displays a list of installed extensions. The first extension, 'Pro URL Shortner 1.1.0', is highlighted with a red rectangular border. It includes a description, its ID, and 'Details' and 'Remove' buttons. The second extension, 'Google Docs Offline 1.14.0', is also visible with its description, ID, and 'Details' and 'Remove' buttons. A third, empty extension slot is visible on the right.
